BAI LED Filament GLS A60 E27 Low voltage 12V-24V AC/DC 1W 130lm (14W) 2700K Clear 320° 60x105mm LED-lamp

LED filament lamps can be seen as the modern sustainable version of the old incandescent lamp. The so-called filaments replace the traditional filament, making the lamps many times more energy-efficient and last much longer. This low voltage series is especially suitable for rooms where one is not on the usual high-voltage network. Think of boats, cellars, garages and storage areas.
